Hi Jim -

Thanks for the comments. I think recapping the 6/13/06 meeting is a great idea and I support highlighting the items you listed regarding the Round 2 report / Early Actions. Your question regarding whether the 11/15 meeting is a larger "Vision" meeting will be up to the Project Managers' Group. I listed what I heard from others regarding their "Vision" of the project for the group to consider. Personally, I would like to learn more about the original "Vision" for the project, do we still have the same vision, and discuss the utility of developing a joint statement on the vision and goals for this project.

Our discussion on the development of the agenda should be interesting.

Rose,

Thanks for putting this draft agenda together. I have several comments I'd like us to consider while finalizing this agenda.

1) I'd like to start the 11/15 meeting recapping the last senior mgr meeting (6/13/06) & discussing the outcomes. I think the most important message discussed in the last meeting was **schedule**...., gaining a common understanding of where we were 6/13; identifying/making any critical schedule decisions; & crafting communication messages re: the project schedule. Rose, this should flow right into your 1st agenda item: "SCHEDULE".

2) I'd like to see...., in the "SCHEDULE" agenda item...., a bullet that once again stresses the importance & schedule implications of: 1) the LWG preparing a useful, comprehensive, & transparent RD 2 SCSR; 2) good, timely EPA/partners review of the RD2 report & identification of RD 3B data gaps; & 3) the LWG preparing satisfactory RD 3B SOW/FSPs

3) These Milestone meetings were originally "Vision" meetings. Is the 11/15 meeting a schedule check-in meeting or a larger "Vision" meeting?

4) A discussion of the status & future directions for in-water Early Actions should be included in the agenda.

Subject: Agenda Development for Milestone Meeting

The attached document contains the list from my previous email. Sounds like the list may have gotten scrambled via the email transfer.

Have a good weekend!
